IT IS "YELLOW JACK."

The Dreaded Malady Breaks Out in Mississippi.

There Have Been 748 Cases Since July 8, But of These Only Nine Have Died.

OCEAN SPRINGS, Miss., Sept. 9.—Dr. John Guiteras, of Philadelphia, reached Ocean Springs to-day. He visited the sick to-day in company with Drs. Bailey and Gant to diagnose the malady and establish the certainty as to whether it is yellow fever or not.

Under instructions from the Superintendent of the Louisville & Nashville, Dr. Guiteras was put off in the woods a couple of miles from Ocean Springs. It was not long thereafter before the Doctor ran up against the quarantine trocha, and the distinguished visitor had fully to establish his identity before he was permitted to run the line. On his arrival in Ocean Springs Dr. Guiteras went immediately to work and in person investigated a number of cases of the prevailing sickness. He found only two cases, it is said, that deserve the term doubtful or suspicious.

A thorough canvass of the wards of Ocean Springs, completed late this evening, shows there have been 748 cases of the prevailing fever since July 8. There are now thirty-seven still sick. The total deaths have been nine, and in several instances physicians' certificates show the fever was complicated with other diseases. There are believed to have been only two deaths due to yellow jack. At the suggestion of Dr. Gant every house where there has been sickness, or there is now, is being fumigated. Dr. Gant says whether the prevailing disease is yellow fever or low malaria, it is certainly contagious.

As indicated by the difficulty Dr. Guiteras has had in getting into the Springs, quarantine is being very strictly maintained. Fishermen and hunters who were out of the town when the cordon was established have not been permitted to return. Armed men are posted in every direction and Ocean Springs seems to be determined that no more sickness of any kind shall be imported within her borders.

At Biloxi. Biloxi people are not absolutely convinced that the fever there is yellow jack. Dr. Harralson has so pronounced the cases, but when he has completed his investigation at Ocean Springs, Dr. Guiteras will be asked to Biloxi and determine positively whether or not Dr. Harralson has correctly diagnosed the disease.

At Seranton. MOBILE, Ala., Sept. 8.—Later reports from the Acting Mayor of Seranton, Miss., are that Dr. Saloman, of the Louisiana Board of Health, has found there two cases of yellow fever, both convalescent, and two suspicious cases. Local physicians disagree with his diagnosis. One of the convalescents is Capt. O. B. Lyons. Others not reported.

Listen for the noonday bell, and remember that it calls you to the upper chamber for communion, thanksgiving and prayer.
